ABOUT ME

Accomplished Software Developer with four years of experience in building and maintaining scalable web applications and robust backend systems. Skilled in the full software development life cycle—from requirements analysis and system design to coding, testing, deployment, and ongoing maintenance. Adept at developing RESTful APIs and backend services using Python and Django, with a strong command of task scheduling and system optimisation. Experienced in deploying applications on AWS EC2 and managing cloud infrastructure to ensure high availability and scalability while consistently delivering high-quality solutions aligned with business goals. With a strong foundation in mathematics, algorithms, and data-processing logic, I bring hands-on experience in enhancing backend performance and system efficiency. I thrive in cross-functional team environments, delivering stable and high-performing software that meets the growing demands of users. Recognised for my initiative and dependability, I contribute effectively to complex, fast-paced projects while maintaining clean, maintainable code and adhering to best practices.

WORK EXPERIENCE

W3Kernel - Software Development Company

City: Dubai | **Country**: United Arab Emirates

[01/04/2021 – 30/06/2025] **Backend Engineer**

- Responsible for developing, upgrading, and maintaining advanced ERP, E-commerce, financial industry software, etc.
